Re: Letter of Recommendation
Champion Builder's

To whom it may concern,

I am writing to acknowledge the performance of Champion Builder's as the general contractor for the new porte cochere and entrance drive that was constructed at the front of St. Paul's Lutheran Church. I was the architect of record for the project.

Champion Builder's did an outstanding job building the project and was a great team member. They paid a tremendous amount of detail to coordinating the sub-contractors and their work and the site was always safe, secure and clean. The church was in full operation during construction and Champion worked hard to ensure that the operations were not disrupted. Joe Mack's range and experience contributed a great deal to the process and Champion's on-site superintendent Dana Wagner was exceptional in his efforts to continuously communicate with the church and the architect during the process which was invaluable.

As a result of their efforts the outcome of the porte cochere was a success and I would recommend Champion Builder's with great confidence. Please feel free to contact me with anything further and thank you for your attention to this matter.

Respectfully,

Brian D. Doran, AIA LEED AP
